

Mondex designs and manufactures high-quality sauna heaters that combine Finnish craftsmanship, modern technology, and timeless Scandinavian design.

Our sauna heaters are built to deliver reliable performance, enjoyable steam, and user-friendly control options for every sauna.

With durable materials, thoughtful engineering, and smart usability features, we bring comfort, convenience, and a touch of everyday luxury to the sauna experience.

MONDEX

GENUINE SOAPSTONE – SOFT AND EVEN STEAM FROM NATURAL MATERIALS

SOFT AND COMFORTABLE STEAM
Soapstone reserves warmth efficiently and releases it evenly. The steam is moist and gentle, and the heat feels comfortable on both the upper and lower sauna benches.

SPACE-SAVING STRUCTURE
The heaters are wall-mountable and do not require rear safety distances. This frees up space for the sauna benches and moving around, especially in modern, more compact saunas.

NATURAL MATERIALS AND REFINED APPEARANCE
The genuine Finnish soapstone brings a natural and timeless look to any sauna. Premium materials and striking appearance make the heater a refined and harmonious part of the overall sauna interior.

FLEXIBLE INSTALLATION AND EMBEDDING
The soapstone heaters can be mounted on the wall or embedded as part of the sauna bench structure. Optional accessories provide the finishing touch to a seamless sauna interior.

MODERN CONTROL OPTIONS
Ahti and Ukko are available with traditional mechanical controls, Louhi and Hiisi with E2 and E2 WiFi controls where precise temperature control, timer, and remote operation add to the convenience.
