KALLA 2.0 E2/E2 WiFi

FLOOR HEATER FOR COMPACT SPACES

Kalla 2.0 is a space-saving, wall-mounted floor heater that gives out the steam of a pillar heater without taking up valuable room in the sauna. Its impressive 80 kg stone capacity provides soft, rich steam and maintains stable, long-lasting heat.

Supported by its own feet, Kalla 2.0 does not require a reinforced wall structure. And because it has no rear safety distance requirement, it can be installed directly against a paneled wall. This makes it an ideal choice for compact and modern saunas.

The digital E2 controller offers precise temperature adjustment, timing functions, and a child safety lock, while the remote control via a mobile device adds an extra layer of convenience and safety.

Kalla 2.0 has an updated modern, minimalistic look. The upper air guide has been moved inside the heater, and the elegant perforated outer shell completes the Scandinavian aesthetic, combining strong performance with thoughtful design. The result is a sauna heater that blends more elegantly into the sauna interior.

LARGE STONE CAPACITY, RICH AND VERSATILE STEAM

80 kg stone capacity delivers soft, rich, and long-lasting steam.

SLIM PILLAR HEATER WITH IMPRESSIVE PERFORMANCE

The narrow, space-efficient design fits both compact and larger saunas. The vertical structure maximizes stone capacity without requiring extra floor space.

MODERN CONTROL OPTIONS

Compatible with the digital E2 control unit. Precise temperature adjustment, timer functions, and remote control capabilities.

ENHANCED COMFORT

The large stone volume stores heat efficiently and provides consistent, enjoyable steam throughout the sauna session.

NORDIC DESIGN BUILT TO LAST

A striking, contemporary appearance combined with long-lasting performance. Brings refined style to both new and renovated saunas.
