

MOTTI WITH WATER TANK

A WOOD-BURNING HEATER AND HOT WATER SOLUTION IN ONE

HEATS THE SAUNA AND WATER

AT THE SAME TIME

The 20-litre water tank heats washing water efficiently while the sauna is warming up. An excellent solution for cottages and saunas without running water.

SOFT AND LONG-LASTING STEAM

The 60 kg stone capacity stores heat efficiently and provides steady, enjoyable steam even after the fire has died down.

EFFICIENT AND LOW-EMISSION HEATING

The extended flue gas circulation and three-channel combustion technology heat the sauna quickly while using less firewood.

SUITABLE FOR A VARIETY OF SAUNAS

The water tank can be installed on either the left or right side of the heater, and the flue connection can be made from the top or the rear.

FOR HOME AND COTTAGE USE

Designed especially for 12-22 m³ saunas where practicality and the authentic atmosphere of a wood-burning sauna are valued.

TRADITIONAL WOOD-BURNING HEATERS WITH MODERN EFFICIENCY

Mondex wood-burning heaters combine the atmosphere of genuine, wood-heated sauna and Finnish expertise. They heat up quickly, use up less firewood and release a pleasant, long-lasting steam.

FAST AND EFFICIENT HEATING

The three-channel combustion system improves combustion efficiency and speeds up heating. Even a smaller amount of firewood is sufficient.

LARGE STONE CAPACITY, RICH STEAM

Large stone capacity stores heat and produces a soft, varied, and long-lasting steam.

LONG-LASTING AFTERHEAT

The stone mass releases heat even after the fire has gone out. The bathing time is longer, and the sauna dries quickly in the afterheat.

COMPACT SIZE, EASY INSTALLATION

Small safety distances and flexible flue connections make it easier to position the heater in different types of saunas.

FINNISH QUALITY AND DESIGN

Timeless design, durable materials, and refined overall aesthetic emphasize the Finnish sauna tradition.

Mondex. Quality, design and Finnish craftsmanship - visible in every detail, felt in everyday use, and trusted to last.

Mondex heaters. Sauna heaters that combine authentic Finnish steam with lasting warmth and Nordic design.

KLAPI

COMPACT WOOD-BURNING SAUNA HEATER WITH RICH STEAM

RICH AND VERSATILE STEAM

The 70 kg stone capacity produces rich, pleasant steam that can be adjusted by throwing water on different areas of the heater. Water thrown lower down creates softer steam, while water poured directly on the stones gives a more intense experience.

FAST AND ECONOMICAL

Efficient combustion technology speeds up heating and reduces firewood consumption.

LONG-LASTING WARMTH

The stones store heat effectively, keeping the sauna warm even after the fire has died down.

IDEAL FOR SMALLER SAUNAS

The compact size and short safety distances make Klapi an excellent choice for cottages and smaller saunas.

ATMOSPHERE AND STYLE

The glass door offers a captivating view of the flames, while the rounded, modern design completes the heater's appearance.

MOTTI

PRACTICAL WOOD-BURNING SAUNA HEATER FOR HOME OR COTTAGE

RELIABLE AND BALANCED PERFORMANCE

The 60 kg stone capacity provides consistent and pleasant steam.

FAST AND EFFICIENT HEATING

Three-channel combustion technology improves efficiency and reduces emissions.

LONG-LASTING HEAT

The stone mass stores heat effectively, keeping the sauna comfortable for longer.

FLEXIBLE INSTALLATION

Short safety distances, adjustable feet, and flue connection from either the top or the rear make the heater suitable for a wide range of sauna layouts.

AMBIANCE TO THE SAUNA

The glow of the fire through the glass screen brings warmth and atmosphere to every sauna moment.
